

PRINCIPAL'S MESSAGE

Principal
Mrs. Sarika Singh

“If a child can't learn the way we teach, maybe we should teach the way they learn” - Ignacio Estrada.

Students have pledged to be the custodians of their cherished institution and uphold its ideals. While providing the finest mentorship for excellence in academics, culture and aesthetics, MVP engenders the responsibility in each student to be the light for others, to lead fearlessly, and to lead with a conscience. The teachers of MVP have endeavoured to find the potential of each child, who is a born genius.

As children embark on journeys unto the unknown, we should fill their young hearts with courage and conviction. We must equip them with the skills and abilities. We should provide them an environment conducive to learning, imagining and achieving. We expect them to meet academic excellence, holistic development, and responsible citizenship.

Through the synergised efforts of teachers and parents, we should ensure that they soar to great heights and create a world full of peace and harmony.

ATMANIRBHAR BHARAT

Let's race ahead and begin our journey of Atmanirbhar Bharat.

Atmanirbhar Bharat (self-reliant India) is the vision of the Prime Minister of India Shri Narendra Modi who has a big plan to make India self-reliant. India should have its own identity. This is the identity of self-reliance. India has suffered a lot from this coronavirus health hazard. There was a shortage of masks, gloves, sanitizers, PPE kits for the medical professionals who are the warriors to cure the infected people. No country could come to help in this global pandemic. India then stood up firmly on its feet and proved its mettle by providing medicines to USA and other countries which were suffering from the Covid-19 pandemic. Also, India has achieved self-reliance in many ways, for example : The largest fund in the country worth 21,000 crores (US\$2.9 billion) was set up by the IIT Alumni Council with the aim of supporting the Atmanirbhar Bharat mission. The main pillar of this Abhiyan is the growth of the economy. Vocal for Local' mantra has proved to be an effective mechanism for strengthening the economy.

अपने हृदय में नए-नए सपने सजाओ
 खुद को और भारत को आत्मनिर्भर बनाओ!

BOOK REVIEW

The Power of Your Subconscious Mind

BY: JOSEPH MURPHY

Hita Laddha
Class 12C

The Power of Subconscious Mind is a book, which tries to spread practical ideologies of healthy practices. The practices involve imbibing good and positive thoughts in your mind. With the concept of how the belief of the subconscious mind can change one's life, the author guides his readers step by step. Reading the power of your subconscious mind, the difference between the conscious and the subconscious is very well explained. Also, the author states that the subconscious mind works as "The master secret of the ages". The text is a perfect blend of faith and belief. Dr. Murphy believes that by using this power one can do anything beyond their thoughts. The author describes the ways to wipe out one's fear. He quotes an example of how an Opera singer used the same subconscious technique to kick the stage fear.

Dr. Murphy advises all readers not to take any decisions when in doubt or confusion. He says, 'When in doubt sleep off, do not ever pressure on your subconscious mind; because after a night's rest one can confidently take the right decision'. To beginners, this book may seem to be normal or something which has repetitive content. But to be honest, considering its age and inner knowledge, this book is a great source of learning for all age groups.

What I Liked about

'The Power of Your Subconscious mind':

- The Power of the Subconscious mind is a complete life changer. It tickles the mind of the reader and pushes the reader to think positively. The most important part is that it also provides ways to inculcate such thoughts.
- The methods mentioned in the book are universally applicable. They do work if exercised with full concentration.
- I would like to say that one should read this book at least once. This novel will train your mind to attract positivity in life.
- Further it will help the reader in goal orientation. The degree of achievement of the reader of this book gets higher.
- Please spare some time from your busy schedule and read the book 'The Power of Subconscious Mind'.

The book gives a strong message that

"Belief is all that matters to bring your actions to reality".

- It is not only a book but a seed of wisdom that deserves a place on every shelf or library. The book shows up many ways for the readers to make use of their inner creativity.
 - The concepts are simple, clear, and effective. If asked what I gained reading this book I will say positivity, visualization, and the importance of the subconscious mind.
 - Everyone can follow these simple techniques, but it takes time to implement them. I practiced and implemented it on my own. Yes, I can say I have seen so many changes in my lifestyle in a short period.
 - Also, I want other readers too to get this experience so that even they can get wisdom and lead a quality life. Do give this book a read.
- Happy Reading!!

RIDDLE

INTERVIEW OF AN EX - MVPian

Rishabh Wani
 Associate PwC firm

Let us know about your school life, your family and your achievements.

I took admission in MVP in the year 2013 after clearing my 10th Board examination. My family consists of four members that includes my parents and my younger sister. My schooling life in MVP was very memorable and consists of several moments that I will cherish during my entire life, one of them was being felicitated as Head Boy of the School for academic year 2014-15.

After passing out MVP in 2015 with 96.2%, I enrolled myself for the Chartered Accountancy course which I cleared in the November 2019 examination. After clearing CA, I am currently working with PwC, a Big 4 firm, in Mumbai.

According to you, what should be given more importance- Ambition, Success, Work or Money?

According to me, our ambitions/goals in life act as inputs based on which we perform our work i.e. process that gives us output in the form of success/money. It is very important to take your call regarding the kind of work you want to do and also to ensure that it is in line with your ambition or goal directly/indirectly.

Can you tell any one incident that you still remember of your school life?

One incident that I still remember and which will continue to be one of the best moments of my life, is the honor of being felicitated as "Head Boy" of the school for the academic year 2014-15.

What message would you like to impart to the students of MVP?

During our school life, we are given examples that if you get the degree or you clear certain exams, the life is sorted. However, what I have experienced till now that work and learning is an ongoing process and it will continue till the time you are alive. So prepare yourself for this reality that learning or working is a continuous process. Also, enjoy every bit of your school life because these days are the most precious days of our life and never gonna come again.

How did your school help in achieving your dreams?

Being felicitated as Head Boy of the school, I assumed role of leader and representative of students council, that really helped me to gain confidence and improve my communication skills. Also, being part of organizing committee for various events that took place during the academic year helped me to develop skills of management.

How did you overcome obstacles in your journey to success ?

I was able to overcome obstacles that I faced in my journey to success with the help of constant support from my family, friends and mentors around me as well as with faith in God that eventually everything will be fine in the end. Both these things gave me strength to work and eventually to overcome obstacles.

Who is your role-model and which qualities of his or her fascinated you?

For me every individual around us, that can be your family member, friend, colleague, teacher is a role-model because we learn something from each of them. Learning from good qualities of every person around you helps you to become a better person.

DO WORLD NEED RELIGION?

Religions are a set of rules that guide individuals throughout their lives. And I strongly believe that they have served their purpose and we do not need them anymore. As Yuval Noah Harari says "What we need now are morality and spirituality. Morality is about reducing suffering in the world. And spirituality is about questioning and looking for answers. Religions provide us just with answers and no scope of questions." Religion has served its purpose of uniting people, setting up structures in society, developing trust and cooperation. But in the 21st century, we are thriving towards objective realities (Realities which exist no matter if people believe in them or not. For example - Gravitational Force, Evaporation etc.) and religion is an inter-subjective reality (Realities which will cease to exist if its believers change their beliefs or are dead). The world objective realities and not the inter inter-subjective reality.

FAMOUS PERSONALITY

SHREYA GHOSHAL

Shreya Ghoshal is my favourite artist. Shreya Ghoshal (born 12 March 1984) is an Indian singer and television personality. One of the most well-established playback singers of Indian cinema, she has received many awards including National Film Awards. She has recorded songs for films and albums in various Indian languages and has established herself as one of the leading playback singers of Indian cinema.

She began learning music at the age of four. At the age of six, she started her formal training in classical music. When she reached sixteen, she was noticed by filmmaker Sanjay Leela Bhansali's mother after she won the television singing reality show Sa Re Ga Ma. Following the success, she made her Bollywood playback singing debut with Bhansali's romantic drama Devdas (2002) for which she received a National Film Award, a Filmfare Award for Best Female Playback Singer, and a Filmfare RD Burman Award for New Music Talent.

Apart from playback singing, she has appeared as a judge on several television reality shows and in music videos. She has been honoured by the United States state of Ohio, where Governor Ted Strickland declared 26 June 2010 as "SHREYA GHOSHAL DAY". In April 2013, she was honoured in London by the selected members of the House of Commons of the United Kingdom. She has been featured five times in the Forbes list of the top 100 celebrities from India. In 2017, she became the first Indian singer to have her wax figure displayed in the Indian wing of Madame Tussauds Museum.

TECH PULSE-RPA

Robotic Process Automation (RPA)

Like AI and Machine Learning, Robotic Process Automation, or RPA, is a technology that is automating jobs. RPA is the use of software to automate business processes such as interpreting applications, processing transactions, dealing with data, and even replying to emails. RPA automates repetitive tasks that people used to do.

Although Forrester Research estimates RPA automation will threaten the livelihood of 230 million or more knowledge workers or approximately 9 percent of the global workforce, RPA is also creating new jobs while altering existing jobs. McKinsey finds that less than 5 percent of occupations can be totally automated, but about 60 percent can be partially automated.

For IT professional looking to the future and trying to understand latest technology trends, RPA offers plenty of career opportunities, including developer, project manager, business analyst, solution architect and consultant. And these jobs pay well. An RPA developer can earn over 534K per year.

You've fought so hard just to come this far. Celebrate everything you have and appreciate even the smallest effort you've ever made.

उड़ना है हमको आसमान में

उड़ना है हमको आसमान में
मन में जिद समाई है।
देखें है सपने जो आंखों में
नींद न आने पाई है।

जीवन अपना है सपने अपने है,
फिर क्यों दूजे से आस लगाई है।
कर्मठ बनो और करो भरोसा
खुद से यही लड़ाई है।

पंख मिले तो उड़ना सीखा,
राह मिली तो चलना सीखा,
कांटों में से फूल चूनकर
मैंने आगे बढ़ना सीखा।

बिखरा हूँ, निखंरूंगा।
एक दिन तो चमकूंगा।
धून यहीं समाई है,
चित्त से यही लड़ाई है।

उड़ना है हमको
आसमान में।

MY SUPERWOMAN

You gave me life.
You work a lot for me.
You always take stand for me, even if I get rude to you sometimes.
You teach me what's right for me and wrong for me.
You raise me up by your love and warmth.
You are superwoman of my life.

That five min laugh with you make me stress free.
Whenever I come back home I search for you first.
Your one smile makes me remember that you are there for me every time.
You deserve everything.
I can't thank you enough for giving me best life.

TWO CENTS WORTH

The author of "Discover the Diamond in You" self help book, Arindam Chaudhuri, suggests we are all diamonds but only thing required is to discover it. The author asks from readers only 59 minutes flat and it can change their outlook towards life.

Few quotes from this book I would like to share:

- You know what you are, but you don't know what you can become!
- Success occurs twice in life: Once in your mind and once in reality!
- Sustained Sincerity: The two most important words that make an achiever!
- The result of your journey is not the reward. The journey is the reward!
- The word 'diamond' originates from the Greek word 'adamas', meaning Unconquerable!
- This book will definitely get you started on your path to discover the diamond within.
