

## PRESIDENT'S MESSAGE

President  
Mahendra Jhwar

"With every book, you go back to school.

You become a student. You become an investigative reporter. You spend a little time learning what it's like to live in someone else's shoes.'

I feel immensely elated to extend my best wishes to all associated with SBR Maheshwari Vidyapeeth.

MVP has earned its niche with every passing year in academics and co - curricular activities which makes us feel proud.

Education is not only an act of acquiring knowledge but also learn skill to lead life and shape one's personality. At MVP the focus is always on discovering, developing and drawing out the hidden talents and the magic lying dormant inside all the students. In today's challenging world, a 360 degree development and grooming is of supreme importance and we strive hard to leave no stone unturned to create environment for future leaders, entrepreneurs and professionals who possess skills and aptitudes in the array of functional disciplines.

In the process I eulogise my team of dedicated faculty members whose consistent efforts help us achieve the goals, unwavering support and commitment of non teaching staff and over and above the able guidance of Principal, Coordinators and other department heads. All have put in their sedulous effort to reach where we are today.

Let us join hands to move ahead because we still have miles to go....

"Let go of yesterday. Let today be a new beginning and be the best that you can, and you'll get to where God wants you to be."

## PRINCIPAL'S MESSAGE

Principal  
Mrs. Sarika Singh

**"If a child can't learn the way we teach, maybe we should teach the way they learn" - Ignacio Estrada.**

Students have pledged to be the custodians of their cherished institution and uphold its ideals. While providing the finest mentorship for excellence in academics, culture and aesthetics, MVP engenders the responsibility in each student to be the light for others, to lead fearlessly, and to lead with a conscience. The teachers of MVP have endeavoured to find the potential of each child, who is a born genius.

As children embark on journeys unto the unknown, we should fill their young hearts with courage and conviction. We must equip them with the skills and abilities . We should provide them an environment conducive to learning, imagining and achieving. We expect them to meet academic excellence, holistic development, and responsible citizenship.

Through the synergised efforts of teachers and parents, we should ensure that they soar to great heights and create a world full of peace and harmony.

## DEBATE IN S.D. JAIN

1st - Position  
Komal Somani &  
Somya Kochar  
- XII A

## RECIPE: KURKURE CHAAT

### Ingredients of Kurkure Chaat:

**Kurkure** - 1 packet,

**Tomato** - 1 chopped,

**Onion** - 1 chopped,

**Potato** - 1 boiled diced,

**Green Chili Paste** - 1 tsp

**Sweet Chutney** - 2 tbsps

**Red Chutney** - 1 tsp

**Salt** - 1/2 tsp

**Sev** - 2-3 tbsps

**Coriander** - as needed.

### Steps for Kurkure Chaat:

- 1) Empty the Kurkure in a bowl. Add tomatoes, onions, and potatoes to it.
- 2) Add green chilli paste, sweet chutney, and red chutney to it.
- 3) Add salt, sev, and coriander.
- 4) Mix all the ingredients.
- 5) Kurkure Chaat is ready.

**Riyanshi  
Rathi  
III - D**

## KNOWLEDGE: BLEND & BALANCE

At the crossroads of learning, lies a dynamic duo: theoretical and practical knowledge, intertwined to weave the very fabric of wisdom. Theoretical knowledge constructs framework and reveals the "whys" behind the success or failure while practical wisdom equips us with tools to tackle real world challenges and retain what we've learned. The fusion of these two is the essence of true understanding. Hands-on-experience invigorates learning, making it exciting and impactful. Modern education gives emphasis to practical learning & training leading to deeper understanding of the concept. It is wisely said, "Knowing is not enough, we must apply. Willing is not enough, we must do." This interplay between theory & practice is crucial. Just as you can't learn to swim in a classroom, you can't grasp knowledge solely from books. Let's remember that success doesn't stem from pitting theory against practical knowledge, but from embracing both dimensions. By doing so, we enhance our journey of knowledge and elevate our chance of success.

## चंद्रयान 3

चला जब चंद्रयान भारत माँ का आशीर्वाद था ,  
इसरो की शक्ति , संकल्प और प्रयास था  
कौन रोकता, ध्वनि थी वेद और मंत्रोंच्चार की  
बात चाहे जमीन की हो या आसमाँ की !  
शांति और प्रेम से रहना मेरे भारत से सीखो ,  
निरन्तर दौड़ रहती है, अथक प्रयास की  
प्राणों की आहुति दे दें बात हो अगर तिरंगे की शान की  
बात चाहे जमीन की या आसमाँ की ।  
सोचकर आँखें दिखाना दुनिया वालों  
अब हमारे पास नज़रे हैं चंद्रयान की  
यह सपनों की उड़ान थी मेरे हिन्दुस्तान की  
बात चाहे जमीन की हो या आसमाँ की ।  
विक्रम ने चाँद पर झंडा लगाया है ।  
जाने कितनी रातें इसरो ने काली की  
तब जाकर चाँद पर उजाला आया है ।  
अब गूँज होगी "जय - जय हिन्दुस्तान की "  
बात चाहे जमीन की हो या आसमाँ की ।  
संस्कृति ना हम भूले हैं ना भूली जाएगी ,  
भारत में अब भी करवा चौथ मनाई जाएगी  
अब तो चाँद हमारा है कृपा और भी ज्यादा आएगी  
मुराद है ये हर हिन्दुस्तानी के विश्वास की  
बात चाहे जमीन की हो या आसमाँ की ।  
अब भारत दीवाली भी चाँद तारों की मनाएगा  
सब कुछ भारत से सीखा दुनिया ने बात ये मान जायेगा  
अब बात मत करना हमारी अमावस की रात की  
बात चाहे जमीन की हो या आसमाँ की ।  
मेरा भारत विश्व गुरु है । मेरा भारत महान कहलाएगा  
बात चाहे जमीन की हो या आसमाँ की ।

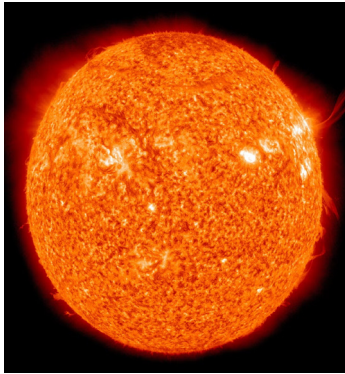

**Disha  
Bajaj  
XI - C**

**Kudos to Maanit Rathi**  
studying in class **IV - A** for  
creating spectacular model of  
Chandrayaan under the  
guidance of his grandfather.

## TECH PULSE

### Artificial Sun – Revolutionizing Clean Energy

By copying the physics of giant stars like our sun, nuclear fusion reactors merge atomic nuclei to create energy in massive amounts, which may then be turned into electricity. Essentially - the end to all our energy woes!

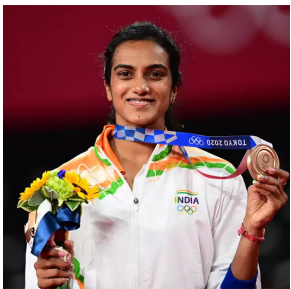

The goal is to deliver endless supply of clean energy by imitating similar reactions that take place in stars like our sun.

Scientists believe nuclear fusion could help humans maximize clean energy production. But the development of such tech is extremely difficult.

In the absence of fossil fuels and toxic waste, nuclear fusion is cleaner and more environmentally friendly than our current methods.

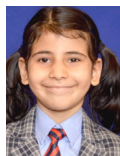

China's "artificial sun" project has sustained a nuclear fusion reaction for more than 17 minutes superheated plasma reached 126 million degrees Fahrenheit—that's roughly five times hotter than the sun.

## ROLE MODEL

My inspiration in life is the world famous badminton player P.V Sindhu. She is a great badminton player of India. Her biggest strength is her never give up attitude which has helped her to win several matches.

This kind of attitude has really inspired me to never give up even if I fail to achieve my goals. She is very hardworking and dedicated towards her work. She tries to give her best performance in every match she plays. Her dedication, hardwork, consistency and positive attitude has greatly inspired me to become successful in whatever I do.

## TEACHER'S COLUMN

### TIME

Always remain unchanged  
In all ups and downs  
TIME is just a moment  
It's sure to fly by

You ought to be hard hearted  
And have a strong desire  
To reach the unreachable  
To touch the untouchable

Time is just a journey  
It's sure to fly by

You ought to be diligent  
And can't wait to be fatigued  
To reach the unfeasible  
To touch the IMPOSSIBLE

Time is just a flow  
It's sure to fly by

By  
**SHWETA BANTHIA**  
(PRT)

## ENGLISH POEM

### THE STAR

I spent days finding the lost star within me,  
But little did I notice,  
Every single particle of stardust approaching.  
With Nitrogen in genes and Iron in veins,  
All of us formed beautifully,  
With dying stars, but none in vain.  
From the bigbang to this very instance,  
We finally find in us the star and it's brilliance.

## CYBER SECURITY TIPS

**What is cybercrime?** Cybercrime is criminal activity that either targets or uses a computer, a computer network or a networked device. Most cybercrime is committed by cybercriminals to make money, damage computers or networks for reasons other than profit which could be political or personal. Some cybercriminals use advanced techniques who are highly technically skilled, others may be novice hackers. Cybercrime involves the following:

- Criminal activity targeting computers using viruses and other types of malware. Cybercriminals that target computers may infect them with malware to damage devices or stop them working. They may also use malware to delete or steal data, stop users from using a website or network.
  - Criminal activity using computers to commit other crimes.
  - Cybercrime that uses computers to commit other crimes may involve using computers or networks to spread malware, illegal information or illegal images.
  - Cybercriminals are often doing both at once. Cybercrime may target computers with viruses first and then use them to spread malware to other machines or throughout a network. What are the types of cybercrime? Types of cybercrime include:
    - Email and internet fraud, Identity fraud, Theft of financial or card payment data, Theft and sale of corporate data, Cyberextortion, Ransomware attacks, Cryptojacking, Cyberespionage, Interfering with systems in a way that compromises a network, Infringing copyright, Illegal gambling, Selling illegal items online, Soliciting, producing, or possessing child pornography.
- Will be continued.....

## HINDI POEM

**\*उफ़र! महँगाई\***

उफ़र! इस महँगाई को देखो,  
आसमान पे छाई है।  
हुआ कम घर का आटा - चावल,  
नेता ने खाई है ॥

महँगाई तो है ऐसा श्राप,  
सुनकर काँपे सबके हाथ।  
वन का राजा होता शेर,  
नाच न जाने आँगन टेढ़ ॥

इस बढ़ती पीढ़ी को अब,  
मिलकर एकबार सोचना होगा।  
नहीं तो मीठे आम - टमाटर,  
हम सबको यह खीना होगा ॥

दो सरकार! दो हमारे जवाब,  
क्यों बनवाए राशन कार्ड ?  
कहते हो कि राशन देंगे,  
हर चुनाव में भाषण देंगे।

बस करो सरकार, बस करो,  
अब तो गरीब को माफ़ करो।  
यह सब कुछ बंद करना होगा,  
महँगाई की रोकना होगा ॥

आओ मिलकर कदम बढ़ाए,  
देश के लए कुछ अच्छा कर जाएँ।  
यह सब कुछ बंद करना होगा,  
महँगाई की रोकना होगा ॥

उफ़र ! इस महँगाई को देखो,  
आसमान पे छाई है।  
हुआ काम घर का आटा-चावल,  
नेताओं ने खाई है ॥
